MERIDIANO SANITÀ INDEX
A MULTI-DIMENSIONAL ASSESSMENT OF HEALTH SYSTEM’S PERFORMANCE

The figure depicts the performance of Italy (orange) in comparison to the European average (blue) under 20 key performance indicators (KPIs) of the 4 areas of analysis. Each KPI presents a score that expresses the performance (1=minimum; 10=maximum). The 4 charts show the average performance of the European countries in each area of the analysis. The detailed methodology of the Index is described in the 2016 Meridiano Sanità Report.
